Welcome

SELLING THE WATER GARDEN
Lifestyle

Water features transform an outdoor living space into a beautiful paradise where you can relax, unwind, and enjoy quality time with family and friends. Whether you tuck a decorative fountain near the entrance of your home or create a backyard habitat with an ecosystem pond and waterfall, you'll find each day enhanced when you waterscape your landscape. Whether you have an expansive lawn or a small balcony, you'll find a water feature to suit your lifestyle and budget.

Aquascape provides the widest range of water gardening products in the industry and each year we provide new options for you. This year we're proud to introduce a small AquaBasin™ to pair with our smaller fountains and spitters. You'll also find more than 50 new decorative items for 2009 in this catalog. In addition, be sure to check out our new brass statuary pieces that require no water, but look great near the pond's edge or added to your garden as a focal point.

We know you'll be thrilled with our 2009 expanded line of products. We developed it with the goal of improving your outdoor living spaces so you can relax and unwind in comfort and style. Water gardening has never felt so good!

Carpe Diem!

▶MicroPondless™ Waterfall Kit

A Pondless® Waterfall is simply a waterfall without the pond.

The perfect solution for small spaces or family homes with small children. This is also the ideal water feature for the front of the home since it can be tucked into any corner. Children will spend hours playing in and around this system.

This kit contains all the necessary components to create a Pondless® Waterfall.

- MicroFalls® Filter - This is the starting point of your waterfall
- MicroCentipede™ Module - Provides space for water to be returned to the pump
- MicroSnorkel™ Vault - Provides access to your pump and allows you to check the water level in the system
- AquaSurge™ 2000 waterfall pump
- 25 feet of 1 ½" quality kink-free hose
- 10' X 12' Pond Liner made from quality EPDM 45 mil fish safe rubber - 20 year guarantee!
- Geotextile Underlayment - Protects liner from sharp objects
- Complete installation instructions and owner's manual

#99769 **4' x 6' MicroPondless™ Waterfall Kit** Case: 4, Unit Weight: 83 lbs.

*Filter mats and media nets for the MicroFalls® unit are not included with the MicroPondless™ Waterfalls kit.

◀ MicroSkim®

Ideal for ponds up to 1000 gallons

Features and benefits:

- Durable Lid - Provides protection of filter components
- Debris Net - Traps larger leaves and debris
- Filter Brushes - Provides additional mechanical filtration
- Skimmer Door - Skims the surface of the pond
- Microskim® - Housing design is rounded; creating strength and durability

MicroSkim® offers professional grade features and quality for the DIY market ... no wonder it's so popular!

#99771 MicroSkim® Case: 6, Unit Weight: 15 lbs.

Skimmers

Why spend hours removing debris from your pond? Aquascape pond surface skimmers remove unwanted debris, including protein film, from the surface of the pond before it has time to sink - reducing unnecessary maintenance. These filters feature large removable debris nets that allow for quick and easy maintenance.

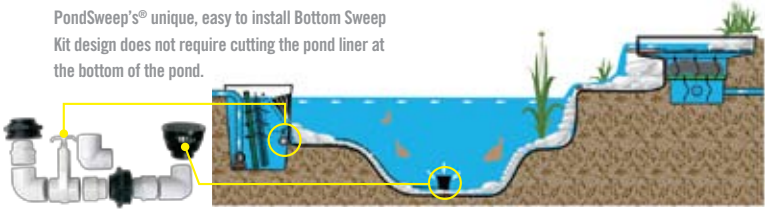
▶ PondSweep®

Aquascape PondSweep® pond skimmers are large enough to tackle ponds up to 1200 sq. ft. of surface area making it a great choice for larger ponds. PondSweep's patented skimmer bellows creates suction on the surface of the pond keeping the pond surface clear from debris. PondSweep® includes an easy-to-clean filter mat reducing filter maintenance.

#00250 PondSweep® SK700PRO Skimmer Case: 6, Unit Weight: 26 lbs.

#00900 PondSweep® SK900PRO Skimmer Case: 6, Unit Weight: 46 lbs.

PondSweep's® unique, easy to install Bottom Sweep Kit design does not require cutting the pond liner at the bottom of the pond.



◀ PondSweep® Bottom Sweep Kit

The PondSweep® Bottom Sweep Kit helps improve circulation, filtration, and water clarity by continuously drawing in water from the bottom of the pond. Ideal for Koi ponds.

#40200 2" Bottom Sweep Kit Case: 6, Unit Weight: 10 lbs.

▶MicroFalls® Filter

Waterfall Filter System

Features & Benefits:

- Ideal for ponds up to 1000 gallons
- Full liner-attachable waterfall lip creates a reliable watertight seal
- The round shape adds strength and makes the filter easier to camouflage
- Lots of space for filter pads and biological filtration media
- MicroFalls® Filter comes complete with fish-safe silicone and hardware

#99774 MicroFalls® Filter Case: 6, Unit Weight: 11 lbs.

◀MicroFalls® Rock Tray

This tray holds rocks, plants, and gravel, helping to naturalize the unit.

#98285 MicroFalls® Rock Tray Case: 6, Unit Weight: 5 lbs.

biofalls

Aquascape Biological Waterfall System provide complete mechanical and biological filtration. Easy to install and maintain, these are the best-selling waterfall filters in the world! Aquascape Biological Waterfall System require cleaning only one time per year and are far less complicated compared to our competitors. These filters can be buried in the ground to create the beginning of a stream or raised to create the start of a waterfall.

Detachable lip makes installations easier and provides a watertight seal

▶UltraFalls™

UltraFalls™ provides complete filtration for ponds up to 2000 gallons. This filter also is a great start to any waterfall.

#99294 UltraFalls™ Filter Case: 6, Unit Weight: 24.5 lbs.

▶MegaFalls™

MegaFalls™ provides complete filtration for ponds up to 5000 gallons. This filter also is a great start to large waterfalls.

#99297 MegaFalls™ Filter Case: 6, Unit Weight: 44 lbs.

Pumps

AquaSurge™ Pumps

Ideal for medium to large ponds up to 13,000 gallons

AquaSurge™ Pumps are ideal for use as a high flow waterfall pump. Their unique design allows them to be used either vertically or horizontally. The asynchronous motor design ensures that the impeller spins in only one direction; maximizing performance, reliability and minimizing electrical consumption.

- Easy to use
- Minimal maintenance
- Low electrical operating cost
- Designed to operate in larger ponds
- Robust, reliable, efficient and quiet
- Fish safe - Uses no oil
- Can be used vertically or horizontally
- Comes complete with a threaded coupler, 90˚ elbow, and 20' power cord.
- Recommended for use in a skimmer prefilter or MicroSnorkel™ Pondless® Waterfall Vault.

Pressure filters are ideal for small to medium-sized ponds. They are generally fed water by the use of a submersible pump that is positioned directly in the pond or pond skimmer. A pressure filter is a sealed unit and therefore allows for installation flexibility. The unit can be positioned above the ground or partially buried, making it easily hidden in the landscape or behind a waterfall.

- Inlet starts water into a Cyclone Action (patented). This moves clean water down the outside of the foam into the bio media at the bottom.
- Large band clamp for easy opening
- In the UVC models, water passes close to the UV light, which kills the algae.
- Water is forced through special density foam. Large foam surface provides increased filtration and bacteria growth. Because the water is pressurized, the foam can fill with more beneficial bacteria without becoming blocked.
- Large tank for extra capacity
- The triple action foam works from the top, bottom and sides. Water passes through plastic biomedia where more beneficial bacteria cleans the pollutants.
- The water passes through plastic biomedia where more beneficial bacteria clean the pollutants.

LOOK FOR ITEMS MARKED WITH THE AQUABASIN™ ICON (L OR S) IN THE FOLLOWING DECORATIVE SECTION

AquaBasin™ Large Features:

Professional grade, high-density polyethylene, double-walled structure gives it superior strength and weight distribution.

18" diameter recessed middle area allows for larger pieces to be backfilled in order to increase stability.

Extra large water storage area holds up to 75 gallons of water, which means less maintenance and can accommodate pumps all the way up to 4000 gallons per hour.

2-9" x 12" pump access panels to allow multiple pumps and easy access for maintenance.

Pre-drilled hole in the center that makes it easy to hook up plumbing.

Measuring out at 45" x 45" x 14", the AquaBasin™ is ideal for catching the splash of some of those larger pieces so more water is retained.

Octagonal shape for maximum strength when backfilling and positioning decorative pieces.

Choose from 3 Ultra™ Pump Kits. Each kit includes the pump and plumbing you need to get the fountain running. *Sold separately. See page 13.*

Why only appreciate your water feature during the day? Adding lights can dramatically change the look of any fountain. *See page 54-55.*

aeration

◀Pond Aerators

Every process that happens in the pond is dependant on oxygen. This is especially important at night when plants are not converting fish-created CO_2 into oxygen. Dissolved oxygen levels are also generally lower in warmer water temperatures. Pond aerators oxygenate your pond, helping create a more stable environment, resulting in healthier fish and plants.

- Promotes a cleaner environment by providing oxygen to beneficial bacteria
- Helps to de-gas CO_2 at night
- Increases dissolved oxygen rates crucial to healthy fish
- Helps circulate pond water
- Can be used in winter to help keep the pond from completely freezing over

▶AquaClearer™ Extreme Dry

Fast Acting Beneficial Bacteria with Enzymes

AquaClearer™ Dry contains pure strains of concentrated beneficial bacteria and enzymes. This combination of natural cleaners helps to maintain a strong biological balance in your pond. Because ornamental water gardens are enclosed ecosystems, sometimes factors like fish load, uneaten fish food and organics such as leaves, sludge and unwanted debris may disrupt the balance. AquaClearer™ Dry maintains a strong biological balance; providing clean, clear and healthy water conditions.

- Helps keep pond water clean and clear
- Helps maintain a balanced ecosystem
- Helps prevent unsightly water conditions
- Keeps filter pads and biological filter media clean

▶AquaClearer™ Extreme Cold Water Liquid

Beneficial Bacteria for Spring and Fall

AquaClearer™ Cold Water contains pure strains of encapsulated bacteria that go to work quickly; cleaning and balancing pond water at colder water temperatures. Aquaclearer™ is still effective in water temperatures below 50˚ F. Because ornamental ponds are enclosed ecosystems, sometimes factors like fish load, uneaten fish food and organics such as leaves, sludge and unwanted debris may disrupt the balance. AquaClearer™ Cold Water contains a specific combination of beneficial bacteria that are most effective at doing two jobs - reducing organic debris such as leaves and reducing ammonia, nitrates and excess nutrients like phosphate that cause poor water quality and unsightly water conditions.

- Helps keep water clean and clear at colder temperatures
- Supercharges biological filters
- Reduces ammonia, nitrite and organic debris
- Reduces maintenance

▶AquaClearer™ Extreme Wetland Pond & Lake Formula

Beneficial Bacteria Maintenance

Contains pure strains of encapsulated bacteria scientifically blended for use in large pond environments. Because large ornamental ponds are enclosed bodies of water often without filtration, sometimes factors like fish load, uneaten fish food and organics such as leaves, sludge and unwanted debris such as runoff containing fertilizers may disrupt the balance. AquaClearer™ Pond & Lake is a highly concentrated blend of specific beneficial bacteria that are effective at reducing ammonia, nitrates and excess nutrients like phosphate that would otherwise cause poor water quality and clarity.

- Ideal for retention, irrigation and golf course ponds
- The most concentrated biological water treatment available
- Naturally reduces ammonia, nitrite and excess nutrients like phosphate
- Will not harm fish or plants

▶EcoBlast™

Spot Treatment

EcoBlast™ is the fastest way to eliminate unsightly debris from water falls streams and rocks. Simply sprinkle EcoBlast™ onto existing debris and watch it disappear. EcoBlast™ works best when the product is applied directly on existing debris.

- Eliminates debris on contact
- Fast acting
- Can be used at any water temperature
- Ideal for waterfalls and streams

▶EcoBarley™ Liquid Extract

Fermented Barley Straw Extract

NEW! FOR 2009

Barley straw has been used for hundreds of years to promote clean clear water conditions in ponds, ditches and streams. Have you ever driven by a pond or stream and wondered why there are bales of straw stacked up where there is water flow? The answer is simple - when the straw starts to rot, it releases enzymes that promote naturally ideal water conditions. Aquascape EcoBarley™ is a pharmaceutical-grade, fermented barley extract that has been concentrated to give you all the advantages of using barley straw without having the disadvantage of having large bales of straw rotting in your pond.

- Provides clear, clean pond conditions - naturally
- Pharmaceutical-grade extract
- Pre-fermented to start working instantly
- Extremely concentrated to save money

Note: Please make sure to store unused EcoCarbon™ in a sealed container.

▶EcoStarter™ Plus Liquid

Makes Water Safe for Fish and Plants

EcoStarter™ turns tap water into pond water. Tap water (including well water) often contains chlorine and heavy metals that, if left untreated, can cause damage to the pond ecosystem. EcoStarter™ eliminates chlorine and unbinds chloramines and chelates heavy metals, making them safe and allowing for metals like iron to be used by pond plants as fertilizer.

- Removes and detoxifies chlorine
- Detoxifies and chelates copper and heavy metals
- Protects and repairs fish mucus membrane (slime coat)
- Detoxifies ammonia and chloramines

Instructions for use:

Use a full dose after completing a clean-out or large water change (more than 50%). Use a half-dose when adding water to the pond or adding or netting fish.

#99404 8 oz. EcoStarter™ Plus Liquid
Case: 12, Unit Weight: .75 lbs.

Treats up to 4,000 gallons

why Aquascape plants?

Aquascape aquatic plants are the foundation of every water garden. Not only do they provide beauty, they also help to balance the pond ecosystem. Aquascape plants will quickly naturalize the pond while at the same time provide shelter and shade for aquatic creatures.

• quality

All Aquascape plants are grown in water and therefore ready to be put into the pond the minute you receive them. It takes much less time for an Aquascape plant to start flourishing in its new surroundings since they are taken directly from their natural surroundings and have not undergone the stress of repotting.

• planting tags

All Aquascape plants come with planting tags explaining light levels, planting depth, bloom time and hardiness zones; therefore, ensuring that the plants will be planted in the correct places.

• hydroponically grown

All Aquascape plants are grown hydroponically in segregated growing vats, creating healthy root structures and reducing problems caused by unwanted parasitic plants that can quickly become a problem in an enclosed water garden.

plant Program

• pre-potted

All Aquascape plants are ready to be introduced into the pond. There is no messing around with repotting. Simply place the pot into the pond or replant into the planting pocket or bog.

• complete plant catalog

Aquascape provides retailers with a complete aquatic plant catalog that includes a complete listing of all Aquascape plants including hardiness zone, description and planting instructions.

This program is currently available in the USA only. Please call for more information and availability.

◀ AquaClearer™ Extreme Dry POP Display

Display contains 36 bottles of AquaClearer™ Extreme Dry 1.2 lbs.

#98277 AquaClearer™ Extreme Dry POP Display

▶ AquaDeicer™ POP Display

Aquascape 200-watt AquaDeicer is ideal for keeping a small hole open in the ice during winter. It is important to leave a small hole open at the surface of the pond allowing for necessary gas exchange. In extreme conditions or gardening zones above 5 we recommend the Deicer be used in conjunction with an Aquascape pond aerator.

Display contains 10 AquaDeicer™ 200's.

- Thermostatically controlled
- Allows for proper gas exchange
- Low power consumption
- Can be used in any pond deeper than 18"
- 2-Year Warranty

The Pond Guide™

A self-help center for your customers! A 3-ring binder sits atop decorative lily pads and there's even room to insert Aquascape's tri-fold brochures on the top of the unit. Constructed of waterproof material to stand up to the elements of everyday life in a water garden center. The information held within the pages will inform and educate current and potential water garden enthusiasts. This creatively designed marketing kiosk can be used as a standalone unit or break it down and set the lily pad and binder on your existing shelving unit.
